'YELLOW PAGES'

AT YOUR SERVICE

Your telephone account is handled by a young lady in our business office, called a Service Representative, whose job is to make sure your telephone service is satisfactory at all times. Whether you're moving your telephone to a new location, or have a question about your bill, or about your telephone service, she'll be glad to help you. If you're moving or discontinuing service, please let us know as far as possible in advance.

If you prefer to transact business in person, we shall be glad to see you at the Business Office in Kankakee. Hours are from 8 A.M. to 5 P.M. Mondays through Fridays.

For your convenience, an after-hours deposit box is available near the door for paying bills when the office is closed.

You May Telephone Telegrams

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company.

Charges for telegrams, cablegrams or radiograms placed by telephone will appear on your monthly telephone bill by arrangement with Western Union. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

About Your Telephone Number

Occasionally, in the past, it has been necessary to change the telephone numbers of some of our subscribers. It may, likewise, be necessary to change some numbers in the future.

We're sorry we can't say to you, "We'll never have to change your telephone number." As a matter of fact, we don't like to change them and won't do it unless it is absolutely necessary.

For **ASSISTANCE** in reaching number.....Call "Supervisor"

A Timesaving Tip

Instead of calling Information, you'll usually save time by looking in the directory where most numbers are listed. Information operators must look up the number just as you do. By doing it yourself, you save the time it takes to call Information. If it is necessary to call "Information," be sure to tell her in which town the desired telephone is located. After obtaining a number not in the directory, we'd suggest you jot it down for future use. A personal telephone directory is available for this purpose without charge from the business office.

ILLINOIS BELL TELEPHONE COMPANY

C. R. Hamilton, Manager

475 East Oak Street, Kankakee

CALLING AN

OUT OF TOWN PHONE?

Here's How To Save Time and Money

Information on placing your out-of-town calls—including rates to some points—may be found on the next page. And you'll find some time and money-saving tips on placing long distance calls on this page.

3 Ways to Save Money on Long Distance Calls

1. **CALL STATION-TO-STATION** if you are willing to talk to anyone who answers. Charges begin when anyone answers at the called telephone or private switchboard. Station-to-station rates are lower than person-to-person rates. But...
2. **CALL PERSON-TO-PERSON** if you want to talk to a particular person. Just tell the operator you wish to talk to a particular person. Charges begin when the called person answers.
(On a call from one point to another in Illinois, a "Report Charge" is made if the particular person you want cannot be reached.)
3. **PLACE YOUR CALL AFTER 6:00 P.M. ON WEEK DAYS** or any time Sundays; you'll make a substantial saving. Rates are also reduced on Thanksgiving, Christmas and New Year's.

On calls within Illinois the reduced rates apply to "station" calls where the initial period rate is 45c or over and to "person" calls where the initial period rate is 70c or over. Reduced rates on calls to telephones outside of the state apply to "station" calls where the initial period rate is 45c or over and to "person" calls where the initial period rate is 65c or over.

SPECIAL CALLS YOU CAN MAKE

OVERSEAS CALLS—You may talk by telephone to any one of more than 90 countries, territories and dominions throughout the world. Dial "Operator" or call "Long Distance" and place your call in the usual way.

SHIP-TO-SHORE CALLS—Most ships may be reached by telephone. Dial "Operator" or call "Long Distance" and place your call in the usual way.

COLLECT CALLS—If you place a call "Collect" and it is accepted on a "Collect" basis by the person you are calling, it is paid for by him instead of you. To place a "Collect" call, dial "Operator" or call "Long Distance".

The charges are the same as for other out-of-town calls except that there is an additional charge on "station" calls to telephones in Illinois when the regular rate is 35c or less and to telephones outside Illinois when the regular rate is 25c or less, (not including federal tax in either case.)

On calls within Illinois, if the call is not ac-

Tips For Saving Time

You'll get faster service if you give the details of your call to the operator like this:

FIRST

Give her the name of the town and state you are calling. Then the telephone number, if you know it. **EXAMPLE:** "Detroit, Michigan—WO odward 5-3456." If it's a person-to-person call, also give the name of the party you want.

SECOND

If you don't know the telephone number, give the name and address and tell the operator whether it's a station-to-station or person-to-person call.

THEN

Give your telephone number when the operator asks for it—and hold the line unless the operator says there will be a delay. Most long distance calls go through while you wait.

cepted, you pay a "report charge". This charge is not made, however, if you decide to pay for the call yourself.

CALLS TO ENTERPRISE NUMBERS—For your convenience, some out-of-town firms list a special telephone number with an "Enterprise" exchange name. Charges for Station-to-station calls to these numbers are paid by the person you are calling, without having to place your call "collect". Just dial your regular operator or call Long Distance and ask for the Enterprise number.

CALLS TO VEHICLES—You can now telephone to or from properly equipped vehicles operating within mobile service areas.

Calls can be made to or from any telephone reached by the Bell System.

To call a mobile-equipped vehicle, dial "Operator" or call "Long Distance" and tell operator you wish to place a mobile telephone call, then give her the number of the vehicle you are calling.

Out-of-Town Calls are Easy to Make

FROM Telephones with a Grant Park Exchange Name

For all out-of-town calls—including all "Person",
"Collect" and "Long Distance" calls, calls to
foreign countries and ships.....Dial "Operator"

For Mobile telephone calls—to mobile subscribers'
automobiles, trucks, etc. Dial "Operator"
(Tell operator you wish to place
a mobile telephone call.)

FROM Telephones with a Momence Exchange Name

For all out-of-town calls—including all "Person",
"Collect" and "Long Distance" calls, calls to
foreign countries and ships Call "Long Distance"

For Mobile telephone calls—to mobile subscribers'
automobiles, trucks, etc. Call "Long Distance"
(Tell operator you wish to place
a mobile telephone call.)

How to Use a DIAL TELEPHONE

WHEN DIALING

1. Look in the directory for the correct number.
2. Listen for the "dial tone." This steady humming sound tells you that the dial equipment is ready for your call. (From a coin telephone, see next column.)
3. Place your finger firmly in the opening for the particular figure. Pull the dial around until your finger strikes the metal finger stop. Then, release the dial and allow it to return to rest without interference.

To Place Out of Town Calls

For information on out-of-town calls, see pages 2 to 4.

If You Dial in Error

In case finger slips while dialing

Or if you've dialed a wrong digit—

Replace the receiver . . .

Wait a few seconds . . .

Lift the receiver to your ear and when you hear the hum of "dial tone,"

Dial the complete number.

In An Emergency

If for any reason you cannot see the dial, locate the first opening just below the finger stop, pull the dial all the way around in the usual way, and let it return. Your operator will answer.

TELEPHONE SIGNALS

THE "RINGING" SIGNAL

Within a few seconds after you complete your dialing, if the line is not busy, you will hear the "ringing" signal which tells you that the called telephone is being rung. This is an interrupted "burring" sound.

THE "BUSY" SIGNAL

By signaling you with a "buzz-buzz-buzz" sound, the dial equipment will tell you (shortly after you finish dialing a number) when the telephone you are calling is in use. When you hear this "busy" signal, be sure to replace the receiver before trying your call again—or placing another call.

Momence, Ill.

TO CALL ANOTHER PARTY ON YOUR LINE

You can determine if the party you are calling is on your line by comparing his telephone number with yours. If the first four figures of the desired party's number are the same as the first four figures of your number, this telephone is on your line.

Party line customers when calling another party on their line dial a special code number to ring the desired telephone—not the telephone number as listed in the directory for that party.

The Code Number consists of three figures

1. The first figure is always "9".
2. The second is the last figure of your number.
3. The third is the last figure of the desired party's number.

Example

Suppose your number is "5-7351" and you are calling "5-7352". The code number in this case is "912"—"9" (in all cases), "1" (the last figure of your telephone number), and "2" (the last figure of the other party's number).

How To Place Your Call

- Dial the code number.
- Hang up your receiver to allow the other party's bell to ring. Your bell will also ring at intervals, indicating that the other telephone is ringing.
- When the ringing stops you will know the other party has answered.
- Remove your receiver.
- Proceed with conversation.

If your party does not answer within a reasonable period, remove your receiver momentarily in order to clear the line.

FROM DIAL COIN TELEPHONES

Local Calls

1. Remove receiver from hook, but do not deposit money.
2. Listen for dial tone.
3. Dial number wanted.
4. When the called number answers, you will hear the dial tone again, then deposit one dime or two nickels promptly. One nickel won't work.

To call out-of-town places:

1. Remove the receiver from the hook, but do not deposit money.
2. Listen for the dial tone.
3. Dial "Operator". When the operator answers, give the call to her; deposit money when the operator asks for it.

TO CALL FROM A NON-DIAL PHONE

1. Look in the directory for the correct number
2. Listen for the operator's "Number, please?"
3. Give number to operator

FROM COIN TELEPHONES

First Remove receiver from hook . . . but do not deposit money. Listen for operator's answer.

Then Give call to her. Deposit money when operator asks for it.

For information on out-of-town calls—see pages 2 to 4.

Attractive Personal Directories

A copy of a personal telephone directory is yours for the asking. The directory is handy for listing your frequently called numbers—your friends', business associates', numbers for places where you shop, and so on. For a copy of the directory, just call your Service Representative at your telephone Business Office.

This small, personal directory will save you time in calling. Be sure, however, to keep your personal list of numbers up-to-date by checking it with each new directory issue.

TIPS TO ALL TELEPHONE USERS

"Beep" Tone Tells When

Conversation is Being Recorded

If you hear a brief, high, almost musical note on your telephone line while you are talking—a sort of gentle "beep" repeated every 15 seconds or so—you will know that the person to whom you are talking has a recording machine which is making a record of your conversation.

The signal is produced automatically by the device used to connect the recorder to the telephone line, and it is provided by the telephone company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. The "beep" signal stops when the recorder is disconnected.

Use of a recorder without this signal is unlawful.

For Your Protection

For your protection, telephone employees who visit the public, carry identification cards with their names and photographs. If you have the slightest doubt about anyone who calls "from the Telephone Company," ask to see his credentials. Telephone people will be glad to show you their cards.

a neighborly party line

Just as much as the people next door or across the street, the folks on your party line telephone are neighbors. The best party-line service for *all* depends on courteous, cooperative use of the line by *all*. Here's how you can do your part.

How to be a GOOD TELEPHONE NEIGHBOR in 6 Easy Lessons

Answer Promptly

This will insure receiving all calls intended for you and will prevent possible annoyance to another family on the line.

Take a Breather

A "breathing spell" between calls gives your neighbor a chance at the line. It also permits incoming calls to come through.

Listen Before Using

Make certain that the line is free before attempting to call a number. (In the case of dial service, listen for the Dial Tone. If you hear successive clicks, it means that someone else is dialing a number. Wait until they stop; then explain to the party that you have interfered with his dialing. And hang up.)

Replace Receiver Properly

If you don't the line is just as "busy" as if someone were talking on it. Incoming calls are blocked; and eventually no one can reach the operator.

And when you find the line already in use, the neighborly way is to hang up gently.

Tell the Children How

Teach 'em young how to use the telephone—to be considerate of others on the party line . . . not to talk unnecessarily long.

Give Way in Emergencies

If your neighbor says the line is needed for an emergency, cut the call short and give the right-of-way. You might otherwise always regret it.

YOUR TELEPHONE BILL

The Date on Your Bill

Telephone bills are not all sent out at the same time. For example, your bill may be dated the 4th of each month, while that of a friend may be dated the 16th or 28th. These "staggered" billing dates help our Accounting people do a better, more efficient job for you. It takes about a week from time the bill is dated to compute the charges and mail it to you.

Explanation of Charges

① Local Service and Equipment

Covers the monthly charge for your local telephone service (including *unlimited* calling within your local flat rate calling area) and for any additional equipment, such as extensions. These charges are billed to you for a month in advance, starting with the date on the bill.

② Toll Service and Telegrams

Total of charges for telegrams and for long distance calls including collect calls which are listed on Statement "A" enclosed with your bill.
Bureau, Ill.

③ Directory Advertising

If you have contracted for directory advertising the monthly charge made by the Reuben H. Donnelley Corp., will appear on this line.

④ Other Charges and Credits

This includes non-recurring charges, an explanation of which is enclosed with your bill.

⑤ Balance From Last Bill

This includes any charge or credit carried over from last month or amounts paid too late to be credited to your bill.

Be A Good Party-Line Neighbor

*If you are sharing your telephone
line with others, please —*

1. Be brief on all calls.
2. Give the others a chance to use the line, too.
3. Hang up if the line is in use.
4. Answer calls promptly.
5. Replace receiver after each call.

For That Home-To-Be...

PLANNED TELEPHONE SERVICE!

Telephone wiring can be as modern and inconspicuous as plumbing and electrical work *if provisions for it are made before your home is built.*

Concealed wiring through the use of rigid, flexible or thinwall conduit enables you to have *built-in telephone outlets* . . . neat little plates similar in design to electrical outlets . . . wherever you desire.

Conduit placed in walls and floors by the contractor at the time of construction, eliminates exposed wiring on baseboards and moldings and reduces the possibility of interruptions to your telephone service. Costs are nominal and the telephone company provides all wires and wiring work. You merely have the conduit installed.

Your telephone company will be glad to consult with you *without cost or obligation* and make recommendations for built-in conduit. Just call our business office and ask for "Architects' and Builders' Service."

ARCHITECTS, CONTRACTORS AND BUILDERS
ARE INVITED TO CALL UPON US FOR HELP IN
PLANNING TELEPHONE FACILITIES.

REGULATIONS

APPLICATIONS

Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

ESTABLISHMENT OF CREDIT

In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

- (1) By furnishing references acceptable to the Telephone Company.
- (2) By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
- (3) By means of a cash deposit.

The Telephone Company may require the subscriber to increase the amount of the deposit at any time if, in its opinion, the charges billed against the subscriber are found to warrant such an increase.

Interest at the rate of not less than 5% per annum shall be paid by the Company on all deposits made for the purpose of establishing credit.

Service may be discontinued for failure to establish credit, as authorized above, within five days after the Company has served or mailed notice requiring the subscriber so to do. Where service has been discontinued for failure to establish credit as authorized by these Regulations, the regular restoral charge will be made and collected by the Company.

OWNERSHIP AND USE OF THE EQUIPMENT

Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus, or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

INTERRUPTIONS TO SERVICE

When requested by the subscriber, if service is interrupted for more than 24 hours, and for causes other than

the negligence or willful act of the subscriber, an allowance shall be made, at the minimum rate for the telephone facilities and class of service affected by the interruption, for such time as the interruption continues. No other liability shall attach to the Company in consideration of such service interruption.

TELEPHONE NUMBERS

The subscriber has no property right in the telephone number or any right to continuance of service through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

TELEPHONE DIRECTORIES

Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the Company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

USE OF SERVICE

Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

PAYMENT FOR SERVICE

The subscriber is responsible for payment of all charges for facilities and services furnished the subscriber, including charges for services originated, or charges accepted, at such facilities. All bills are due when rendered and are payable at the Telephone Company's business offices.

In the event that any sum due is not paid on or before the 14th day after the issuance of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within seven days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge of \$1.50 will be made. In case service has been denied, in addition to the restoral of service charge, the subscriber will be required to pay all service charges up to the time of restoral of service. Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.

These Regulations are Excerpts from the Official Regulations of this Company as on File with the Illinois Commerce Commission, December 20, 1955.

MODERN HOMES

have convenient phones

KITCHEN

The homemaker's headquarters! A phone here adds real convenience and efficiency... in color, it adds beauty, too.

LIVING ROOM

A phone in the "family room" saves steps for everyone—you can reach instead of run.

BEDROOM

Enjoy the convenience of a bedroom phone. Comforting at night, too, when the telephone's within easy reach.

Convenient telephones are part of modern living. They mean step-saving comfort and peace of mind for the whole family—home life runs more smoothly. And they're a bargain, too... each extension phone costs only about 3c a day!

Your Service Representative

will be glad to explain how you can have

more telephone convenience in your home at low cost.
